## Checklist Check the following items, and put a check mark .

- Font size: 9Q or 6 points; Outlined characters: 8.5 points or more
- Rule lines: 0.3 points or more
- All fonts are outlined.
- Bleed marks, unnecessary objects, anchor points, and isolated points are deleted from the final draft data.
- The data is saved in the same version as the version of the application used.
- Illustrator data is saved in EPS format. (.ai, .pdf are prohibited)
- Image data is set to an appropriate resolution for its actual size.  
(Standard appropriate image resolution: 200 ppi)
- The image data is saved in Macintosh 8-bit/pixel binary format or ASCII85 format.
- The document size is correct. (Stroke width does not overflow)
- CMYK color is used for color documents. (RGB is prohibited)
- Layout data and image data are saved in the same folder.
- Final galley proofs are output at full size and checked for errors (garbled characters, missing images, etc.).
- Submission media / Data Submission Specification Sheet / final galley proofs have been prepared.
- The original data is backed up.
- Virus check has been performed.
